

Meet Margaret!

A Gentle Soul Waiting for Her Forever Home

Margaret is not your ordinary kitten; she is an enchanting blend of sweetness and soft whimsy, half Munchkin breed. With her plush, beautiful fur, Margaret is a vision of playful innocence and quiet resilience. She has come a long way in her short life, learning to navigate a world where love was not always front and center, and she is now ready to gently step into a home where patience and kindness are in abundant supply.

From the moment you meet her, you'll notice her playful spirit. Margaret delights in the simple pleasures: chasing after jingly balls, batting at feather wands, and darting from room to room in an exuberant display of kitten energy. She loves nothing more than sharing her toys with fellow kittens and engaging in playful gentle pouncing that fill her world with delight.

She thrives on gentle interaction, choosing when and how she wishes to share her affection. Unlike the stereotypical lap cat, Margaret will not jump into your arms or settle into your lap on the first invitation. Instead, she prefers to maintain her independence, approaching her people when she feels comfortable and safe.

Indoor only! She has only known indoor safety and will not know how to survive out there. Margaret is happiest with her safe indoor eutopia. Because of her glorious, silken coat, Margaret will need regular grooming to keep her fur in its radiant best.

Visit Margaret at Hawaii Cat Café, if there is a subtle connection between you, fill out the application per the café's procedures. The Honolulu Pet Clinic is sponsoring her adoption fee.
